

/home/hfp/MathH/include
/MathH/MathH.h

```
graph TD; A["/home/hfp/MathH/include  
/MathH/MathH.h"] --> B["stdexcept"]; A --> C["vector"];
```

The diagram illustrates the include paths for the `stdexcept` and `vector` headers. A top box contains the path `/home/hfp/MathH/include` and `/MathH/MathH.h`. Two arrows point from this box to two separate boxes below, labeled `stdexcept` and `vector`.

`stdexcept`

`vector`
